Hopefully you will recognize me from working the Front Desk. If I have assisted you at the Front Desk or spoken with you on the telephone on another matter I trust you will remember that you were treated with respect and courtesy. If I have treated you well please reciprocate with your vote(s) and tell others.

Born in Springfield Mo. in 1949 I graduated from Central High School in 1966. I served in the USAF and was Honorably Discharged in 1971. I later earned a Bachelor of Science Degree in Business Administration.

After 3 years with Overhead Door Company of Springfield and another 3 years at Paul Mueller Company I accepted a position with the Department of Mental Health in Poplar Bluff, Missouri in 1977 and remained there until I transferred to Jefferson City in 1984. At that time I was employed by the Department of Social Services *retired* from the State of Missouri on August 1, 2003.

Currently I am a licensed Real Estate Agent in Missouri and work temporary assignments through Kelly Services. My last employment through them was a month long assignment to grade End of Course Assessments (Formerly MAP / Achievement tests) for all the High Schools in Missouri through the University of Missouri.
