## *Buildings and Grounds*

As you may already know, a lot of the heavy projects on the Park are planned during the winter months. This year, there have been several projects, which already have been tackled. One, which was completed last week, is the first stage of the renovations on the Lodge. The dining area has been beautifully updated and redecorated. This coming week, Maintenance

and Housekeeping will be hanging curtains and putting up pictures, but this will give you an idea of this great new area.

The remaining portions of the Lodge will be finished as one of the winter projects.

### *Sites Committee*

The concrete work on the first six sites, in Phase I, has been completed; and, two of them are already occupied. Work has begun on three sites in Phase II in the horseshoe. This will continue until the twenty designated sites, promised by the Board, are completed.

### *And . . .*
